

**Position Title:** Software Engineer  
**Reports To:** Director of Software Engineering  
**FLSA Status:** Non Exempt  
**Location:** Sioux Falls, SD

**Position Summary:** EDCO Group Inc. is looking for a first-class software engineer to join our development team. We design and build Electronic Document Management and Capture solutions for the Healthcare domain. The Technology Center is based out of Sioux Falls, SD; where we pride ourselves on leveraging the latest software development platforms to deliver robust solutions to our customers.

### ***Job Functions***

In this position you will participate in all phases of the software development life cycle. You will be responsible for the design, development, and testing of software applications used in EDCO Group's fleet of products and will take an active role in leading these efforts. You will be required to write software requirements specifications, create software design documents and develop software test procedures.

### ***Position Qualification Requirements***

To qualify for this exciting opportunity, you must possess the following qualifications:

- BSCS or equivalent experience
- 0 – 4+ years of experience developing software applications
- Excellent problem solving and communications skills
- Demonstrated experience in developing quality, maintainable and well-designed software
- Proven track record of success with the ability and willingness to share information and cross-train peers
- Strong knowledge of .NET or Java/J2EE preferred.
- Experience or familiarity with HTML/XML/CCS/XSL
- Good understanding and practical experience with OOD in a .NET or JAVA environment (UML experience is a plus)
- Experience working in an agile software development environment
- Strong written and verbal communication skills

Primary Skills: C# or Java, ASP.NET, Silverlight, WPF, WCF, HTML/CCS/XSL
